The mission of the Frances Hesselbein Student Leadership Program (FHSLP) is to grow and sustain the Student 2 Student® (S2S™) Program on the local campus. Established by Military Child Education in 2006, the Frances Hesselbein Student Leadership Program offers an intensive experience for selected students to enrich their leadership and team building skills.

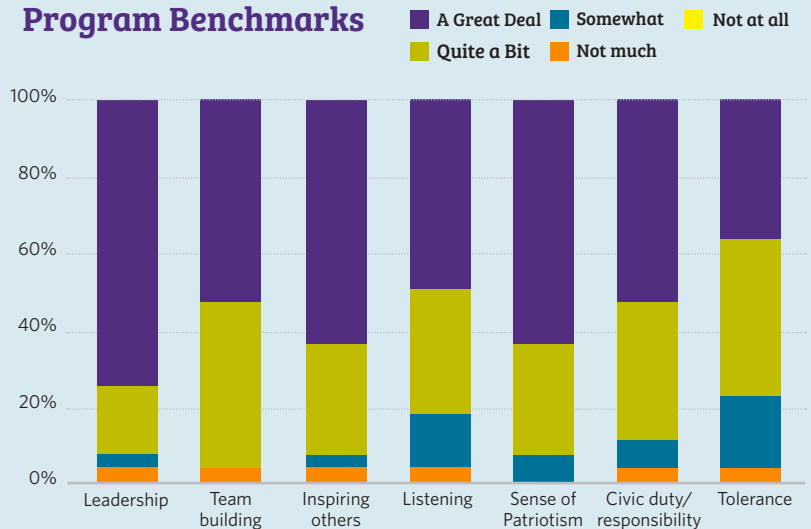

The week-long, intensive experience builds skills through personal and small group settings. Students gain confidence, competence, and commitment to their leadership to build their local S2S program.

Students also have an opportunity to share their program challenges and successes with other peers to gain a new insight on improvement. Distinguished guests provide insights to overcoming challenges and to building personal character.

**“The lesson that meant the most to me this week was the smart goals lesson. I learned so much about how to accomplish goals and how to accomplish them diligently.”**

**Fall Semester  
United States Military Academy  
West Point, New York**

During the fall semester, the students learn leadership skills from West Point faculty, distinguished guest lecturers, and hands-on activities. These experiences are the same as our future military leaders learn prior to starting their careers as officers. The evening activities include building lifelong connections with their teammates and sharing their own S2S programs and goal setting with their new teammates.

**Spring Semester  
United States Air Force Academy  
Colorado Springs, Colorado**

A team of senior cadets majoring in Behavioral Science and Leadership build the annual Frances Hesselbein program starting the fall of their senior year. The week's learning is structured around the core leadership principles taught to the cadets. The students are taught by the cadets and are provided experiences that build on the leadership principles. The week ends with a goal setting session for students to take back to their campus and implement.

**“This training will help me improve my leadership skills, by allowing me to become more resilient and responsible for my actions and giving me the ability to better communicate and strengthen my connections.”**

- Nate B. Severna Park, Maryland
