

## JOINING FORCES

# GROWING AND DEEPENING THE OEE COMMUNITY

Thank you for participating in **The White House Convening: Operation Educate the Educators (OEE)**. We hope that the speakers and the message affirmed your work on behalf of military-connected students and that you will help us grow the effort in the coming years. We truly value your efforts to ensure your schools of education prepare graduates to meet the social, emotional, and learning needs of military-connected P-12 students.

Please consider ways that you can help in your own institution and through your professional network. Specifically, we ask that you express your intention to help by committing to the following:

- **I pledge** to deepen our program commitment at *(institution's name)*:

---

during the 2016-18 terms by *(ex. strengthening teacher prep course content, collaborating with area military institutions, collaborating with military-serving school systems, as well as sharing with the OEE Community)*:

---

---

- **Further**, I will reach out to *(name two or three higher education institutions)*: \_\_\_\_\_

---

and encourage them to join our Operation Educate the Educator Community by signing on to the OEE Guiding Principles.
